

## **Music Minister Council Report**

**Tim Beasley**

**June 2015**

1. As you may have heard, everything is on hold for me right now with doctor's ordered rest. I'm not driving yet. I've been able to do music selection and prepare music packets for the worship band and keep in touch with staff. I go to the church for an hour or so on Fridays to program the computer in the sanctuary.

This Friday (June 19) I go to my cardiologist's office for testing to see how much damage I have and how much activity I'm able to do. The following Friday (June 26) I see my cardiologist for the results and will hopefully be released to do more work. I fully expect to be leading worship music again beginning on July 4, the Lord willing.

I will be going back to outpatient cardiac rehabilitation in July for a few months to build up strength.

This time off is covered in my contract through vacation, etc.

2. I was able to attend the health insurance discussion last Tuesday. I'm not inclined to participate and am happy to share the reasons with anyone interested. At this point there's not enough information for me to make any kind of informed decision about how I will acquire health insurance in the future.
3. Thanks for all your prayers, patience, and support.
